

# A PACT

AND MY PROMISE TO YOU

“ Hospital safety demands an adherence to strict infection control policies and standards. I’m committed to patient safety and strive to make Boone Hospital Center the safest place to receive the best healthcare in our community. ”

Wendy Castagno, RN  
Boone Hospital Center  
Infection Control Specialist

Every day hospitals face

the challenge of controlling infection.

☛ That’s why Boone Hospital Center carefully monitors risk and incidence of infection. ☛ Boone is part of an Infection Control Consortium of hospitals that shares research and data to develop and implement infection control plans. ☛ Every department at Boone adheres to core safety policies and guidelines established by the Centers for Disease Control. ☛

Reducing patients’ risk for acquiring an infection is a priority for the entire Boone Hospital team. ☛ Dedicated professionals, like Wendy Castagno, are an important reason why people choose Boone.
