

# A PACT

AND MY PROMISE TO YOU

“ The greatest satisfaction I get from my job is knowing I’m helping patients by making certain they get the right meds and doses—and that’s part of Boone Hospital’s mission. I’m committed to improving the health of our patients. ”

*Os Enriquez Jr., RPh  
Boone Hospital Center  
Supervisor, Pharmacy Services*

Boone Hospital pharmacists, like Os Enriquez, take patient care seriously. 🍷 After prescriptions are computer cross-checked for drug interactions, Boone pharmacists personally double-check each prescription before it leaves the pharmacy. 🍷 In addition, Boone pharmacists improve accuracy by using the “write it down/read it back” policy when taking prescriptions over the phone. 🍷 And with advanced pharmacy software, Boone pharmacists track a patient’s lifelong prescription history, which can be crucial for patients with lifetime dosage limits. 🍷 The unmatched commitment of Os Enriquez and Boone’s pharmacy team is another reason why people choose Boone.
