

A PACT

AND MY PROMISE TO YOU

“ Staying independent and in their home is important to my patients, and making sure they are safe in their home is important to me. ”

Lisa Osborne, RN
BJC Home Care Services at Fayette

Our patients feel right at home with their BJC Home Care Services nurse – nurses like Lisa Osborne, who work to help patients jump-start their recovery after surgery or an illness. ☺

Lisa's care extends beyond helping patients reach their highest level of independence and health.

☺ She also makes sure their homes are safe and have the right equipment, such as grab bars or rails on beds. ☺ She'll check pathways to see that they are clear in order to prevent falls, and teach about medication doses and side effects. ☺

She shares ideas that combine health safety with home safety, to help her patients stay right where they feel the most comfortable – in their own home. ☺

For more information on how BJC Home Care Services at Fayette can bring their outstanding health-care resources to *your* home, call 618-283-6050.
