

A P A C T

AND MY PROMISE TO YOU

“How important is patient safety to me? It's in my job title. It's my focus every single minute that I'm at work, and plenty of minutes that I'm not. After all, quality health care provided accurately and safely is what we're all about.”

*Nancy Kimmel, RPh
Missouri Baptist Medical Center
Patient Safety Specialist*

Few people understand the importance of patient safety as well as Nancy Kimmel. ☺ Thanks to her efforts and those of others, Missouri Baptist Medical Center has instituted such programs as a Patient Safety Hotline and a medication safety brochure distributed communitywide. ☺ The Missouri Baptist Medical Center team is focused on the vital task of ensuring medical accuracy. ☺ This is why Missouri Baptist Medical Center earned the American Hospital Association's prestigious Quest for Quality Prize in 2002 for its commitment to patient safety and quality. ☺ Quite an honor — but for Nancy, all in a day's work. ☺
