

## FIELD OBSERVATION REPORT

Report Prepared by:		Report No.	
Date of Field Observation	Time	Weather	Temperature deg F
Attendees			

### Project Information

Project Name	BJC Proj. No.
Facility/Owner:	Campus:
Location/Building name	Level/Wing:
Architect of Record	Point of Contact
MEP Engineer of Record	Point of Contact
Other:	Point of Contact
Constructor (CM)	Point of Contact
	Superintendent

### Observations

General Construction Activities

Performance Checklist <small>(U: Unsatisfactory S: Satisfactory)</small>						Progress	
General	U	S	Material Handling and Storage	U	S	<i>Enter percent complete for the following categories</i>	
Construction sign posted/installed			Ductwork encapsulation			Overall Project	%
Posted emergency contact info			Stored materials on skids/above floor			Foundations	%
Posted construction permit			Stored materials properly secured			Basement	%
Posted hot-work permit			Stored materials in conditioned areas			Superstructure	%
MSDS available			Stored materials in construction area			Exterior Enclosure	%
In progress as-built documents			Access to/around stored materials			Roofing	%
Personal electronic devices prohibited			Loose materials in containers			Interior Const	%
Tobacco use prohibited			Hoisting operation signals			Stairs	%
Weather-tight interior environment			Hoisting load limits identified			Interior Finishes	%
Building mech systems operating			Hoisting equip condition (slings, chains)			Conveying	%
Other:			Other:			Plumbing	%
<b>Safety</b>			<b>Housekeeping</b>			HVAC	%
Secured construction area			Construction area kept clean/maintained			Fire Protection	%
Badge/Identification			Construction debris removed from site			Electrical	%
Personal protective equipment			Temp power grounded			Equipment	%
First-aid kit accessible			Temp lighting with guards			Furnishings	%
Fall protection guard/covers			Food/waste in designated area only			Special Const	%
Safety harness/tie-offs			Other:			Selective Demo	%
Guarded cutting tools			<b>Infection Prevention</b>			Site work	%
Fire extinguishing equipment			Walk-off mat installed			<b>Progress Notes</b>	
Grounded power tools			Walk-off mat maintained				
Temporary heating units			Temporary partitions				
Exit/egress clearly identified			HEPA filtration installed/maintained				
Protection for work overhead			Negative pressurization				
Other:			Other:
